RECEIVED

May 17, 1945-

Dearest Donna.

Thanks for your lovely letter. I really appreciate them. The weather is still very bad here. It still rains every day, and its trying to rain again. Its to bad wear loosing so many fellows from Vernal especially the married ones.

I would of gladly given my life if someone with a wife and family could of came back. It always happens that the good go ~~the~~ and the no good like myself come back. What a life. ?

Guess I'm feeling quite blue today for some reason, maby its because I might not get home again untill after september.

I would like to receive a picture from you honey, but of course if you

don't want me to have one you don't
have to send it. but I would like
one very much.

I'm still working hard honey as a
crew chief, but I get quite lonely once
in a while so don't mind the grouchy
letter. Have you decided what you
will do this summer as yet?

I haven't much to write about
so I'll expect the long letters from
you.

- Lots of Love
Carl.
