

July 26.

Hello Honey,

I received your long waited for letter today. I almost gave up hope of hearing from you again. but I guess the big city is keeping you busy. I got shipped here to Stout field two weeks ago Sunday.

I hated to leave all my friends behind but they wanted me up here so here I am. I just got back from Scott field today. I took a bunch of the boys down there and we had a little plane trouble so we had to stay down there 4 days to get it fixed. I have quite a job here now as pit chief. I have ten men working under me. We inspect the planes.

every 100 hours they fly. I dont like being boss over G.I. There to much trouble all the time. We have one or two that are a little lazy and it make it hard on the rest of them, and there always complaining. Well I hope I get a different job soon. I expect to be flying from cost to cost carrying troops. I might even stop in Salt Lake. Do you have a telephone number? Send it if you have.

I'll try again to have my picture taken Honey, but my map is not a very pretty map to be looking at.

Well Honey take care of yourself and write and tell me all what you doing in Salt Lake. Good night Honey and be good.
With All my Love Carl.
